***** REGISTRATION *** - VERY IMPORTANT**

You MUST request your serial number from support@brigadoonsoftware.com to register your software. If you don't request your serial number and enter it into the serial key field in the configmod screen, your software functionality will CEASE TO FUNCTION in 30 days. Your OLD serial key WILL NOT WORK!

Acquire your serial key from <mailto:support@brigadoonsoftware.com>

Once you have the serial key, you must go to the application folder and open the configmod file in the macph folder. This will open the configmod file. Click the register button and enter your serial key. Click save and reboot your computer. Once this is completed, MacPhoneHome version 3.5 is permanently installed on your computer.

Thank you for choosing MacPhonehome.
